TECHNICAL DATA SHEET MACHINE DISHWASHING LIQUID

Cleaning System Code: C12

1. Introduction

A strongly alkaline, aqueous concentrated automatic dishwashing composition designed to provide clean and smear free finishes on all catering utensils including dishes, plates, cutlery, glassware, and plastics.

2. Where to use

This product is designed exclusively for use as a metered detergent in all commercial automatic dishwashing equipment where it provides high levels of detergency and easy removal of food deposits, coupled with easy rinsing.

3. Where not to use

- Any other application other than that shown in Section 2.
- On aluminium or soft alloy utensils.

4. Physical properties.

Appearance	A non-foaming, free flowing colourless liquid with a bland odour.
pH	>13.0
Specific Gravity	1.16 +/- 0.01
Non Volatiles % m/m	15 - 25
Active Content % m/m	15 - 25
Flammability	This product is not flammable.
Composition Data, descriptive	An aqueous solution of inorganic and organic sequestering agents, and inorganic base.

5. Application Details

Employ strictly in accordance with equipment manufacturers instructions.

This product is designed for use at up to 0.5% concentration in hot, cold, hard or soft water. Where accumulation of scale occurs, higher concentrations of up to 1% may be temporarily necessary to keep equipment clear.

For optimum performance use in conjunction with CABINET RINSE AID [C9].

6. Availability

Five litre jerry cans

Product Reference SVTN5DW, Dated February 2009
