TECHNICAL DATA SHEET
NILGLASS AEROSOL
Cleaning System Code: J 38

1. Introduction

A weakly alkaline water based foam cleanser designed for specific use on glass and other reflective surfaces.

2. Where to use

On all water resistant “hard” non-porous substrates, particularly glass and other reflective surfaces for light duty cleaning.

3. Where not to use

- This product is not recommended for use on low emissivity glass.
- On coated glass, without first assessing suitability of use on an inconspicuous area.
- On “soft” porous substrates such as soft furnishings, curtains etc.
- In direct sunlight.
- On large surfaces. If doing so, always work in small easily manageable areas. Do not allow to dry on the surface before removal.
- In confined spaces without adequate ventilation.
- On a routine basis on polycarbonate or other clear, particularly stressed, plastics where stress cracking may be induced.
- On food contact areas where overspray or product retention is expected. This product may be used to clean food preparation and storage areas provided that all residues are removed, and it is used in accordance with the instructions provided in section 5, below.

4. Physical properties.

Appearance	A fast breaking colourless foam with a bland odour..
pH	10.0-11.5
Specific Gravity	0.985 – 0.995
Non Volatiles % m/m	< 0.15
Active Content % m/m	11.0 – 11.5
Flammability	Extremely Flammable
Composition Data, descriptive	Deionised water, alcohol, butyl glycol, soap, water softener propelled by a butane / propane mix..

5. Application Details

Shake well Before Use

Spray:-Use directly from a spray package. Apply to surface, and spread over the surface with a soft cloth. Remove with a clean dry cloth turning frequently, and buff to a clean, dry state.

DO NOT APPLY IN STRONG DIRECT SUNLIGHT.

DO NOT ALLOW TO DRY ON SURFACE BEFORE REMOVAL.

6. Availability

Aerosol

B080422RJB, Draft 01/04/15
